## Amaya Design Lab

ADL helps public and private agencies turn policy-heavy, manual operations into working systems teams can run without long-term contractor dependence. We deliver inside existing technical boundaries and operating constraints, including ATO, security posture, and records requirements.

## Capabilities

**Workflow:** Workflow modernization that cuts cycle time, reduces handoffs, and reflects how the work actually moves.

**Governance:** AI governance workflows, including intake, review gates, risk classification, and audit trails.

**Implementation:** Software delivery inside approved environments, with handoff-ready documentation.

**Intelligence:** Knowledge systems that reduce version drift and make retrieval easier to trace.

**Training:** Capability transfer tied to adoption, not attendance.

## Performance

### Phillips International

- Recovered \$400K in scope creep.
- Cut time to independent shifts for managers by 50%.

### Sinai-Grace Hospital

- Reduced charting time per encounter by 60%.
- 8x faster note completion + reclaimed 12 clinician hours per week.

### UN Water Conference

- Structured 700+ commitments into a queryable SDG 6 tracking system.
- Surfaced 84% gap and patterns in the first quarter.

**Total portfolio outcomes:** \$7M+ client savings, 4x faster new-hire productivity, 60% fewer handoffs on critical workflows.

## Why ADL

- We work inside agency cloud, VPC, on-prem, and other approved environments.
- Senior people do the work. The team scoping the engagement is the team delivering it.
- We build for continuity, turnover, and handoff from day one.

## Codes

### NAICS

- 541512 — Computer Systems Design Services
- 541511 — Custom Computer Programming Services
- 541611 — Administrative / General Management Consulting
- 518210 — Data Processing, Hosting, and Related Services
- 611430 — Professional / Management Development Training

### PSC

- D302 — Systems Development
- D306 — Systems Analysis
- D307 — Automated Information Systems Design
- R408 — Professional: Engineering/Technical
- U099 — Other Education and Training

## Delivery Profile

Roles	Contract Types	Typical Engagement Size:	Certification Status:
Prime / Subcontractor	T&M, FFP, hybrid	\$150K-\$2M	8(a) pending, NYC M/WBE pending
